

The **PonyKids Program** is designed to introduce 5-7 year olds to horses, horsemanship, and riding in an environment of safety and fun. This all-important beginning will provide a solid and correct base for their future enjoyment and learning. It is taught in a half-hour private lesson format to accommodate each child's individual development and learning style.

PonyKids lessons are taught primarily on leadline on the trail and in the fields. The program focuses on developing your child's confidence, balance, and coordination while feeling secure in their surroundings. As goals are reached in these areas, each child will move on to more direct control of the horse. Some 7-year olds may initially be ready to ride independently and not on a leadline; this decision will be determined by the instructor.

Lesson fee of \$50/per lesson due at the time of the lesson
To schedule: E mail: cwponykids@gmail.com

Being mostly field based, our PonyKids activities are weather dependent. In inclement weather, lessons generally occur in our indoor arena. On the unlikely day that neither option is available, lessons may be cancelled. If that happens, parents are contacted the morning of the lesson by our staff.

Our payment policy is as follows: In an effort to avoid the inconvenience that missed lessons and last-minute cancellations cause, if any lesson is cancelled later than 9 AM the day before the scheduled lesson, a \$35 late fee will be charged.

All lesson students' parents are to provide a credit card for Waredaca to keep on file; this card will only be used if payment is not received at the time of the lesson OR a cancellation or no show occurs outside of the time frame allowed.

Thanks, and welcome to the program!!
